

Employee Heath Check

The health and safety of our team members is always top of mind. We are closely following official COVID-19 recommendations provided by the WHO, CDC, and local government guidelines as we bring you back to work.

To help create a safer work environment, it is our expectation that you will arrive for your shift without any of the symptoms associated with COVID-19 and that you will not have been in close contact with anyone who has those symptoms. In other words, you will be ready, willing and able to work.

Although conducting a self-health check is not required prior to coming to work, we are providing you with a series of questions the WHO, CDC and other public health agencies have said that we should all be asking ourselves every day in order to promote public safety during this pandemic

Although the questions below are related to COVID-19, as always, if you are not feeling well you should stay home and call your manager to report the absence. Health Check Questionnaire

Note: It is our expectation that employees are ready, willing and able to work only if none of the below is answered in the affirmative.

1. Do you have a fever (100.4 or higher) or a confirmed case of COVID-19?
 Yes
 No
2. Are you experiencing any of the following symptoms?
 Shortness of breath
 New loss of taste or smell
 Chills
 Muscle pain
 Body aches
 Congestion or running nose
 Nausea or vomiting
 Diarrhea
3. Are you experiencing a cough, headache, sore throat not attributed to a known or previously experienced condition, such as seasonal allergies?
 Yes
 No
4. Have you been in close, direct contact with a confirmed or suspected case of COVID-19, within 6 feet for longer than 15 minutes?
 Yes
 No

If you have answered YES to any of these questions, you are not ready, willing and able to work. Please advise your manager.
